The
TIMBER
Collection

Welcome to Katell

Welcome to Katell, a company specialising in the design and manufacture of high quality fires and fireplaces.

Our ongoing commitment to high quality and exceptional performance is reflected in this stunning collection of timber surrounds.

Each fireplace is lovingly designed and created here in the UK and our team of skilled craftsmen ensure products are perfectly suited to your interior and changing lifestyle.

Admiring our fires and fireplaces first hand is the best way to appreciate their stunning design and quality.

Working with leading fireplace retailers across the UK, we are confident you will find the perfect timber fireplace for your home.

Solid Timber Surrounds - unmistakable beauty & warmth

It's difficult to find a more natural and stunningly beautiful material than the warmth of natural wood.

Being an entirely natural product, no two pieces of solid oak timber are the same, grain patterns and colour tones help give a beautiful natural appearance which helps to make all our timber surrounds completely individual with their own character and identity. All solid timber surrounds in this catalogue are shown with this symbol.

Oak veneer & painted surrounds

Katell manufactures a range of fireplaces with real wood veneers for a more consistent appearance or painted in a range of finishes to compliment modern and traditional interiors.

Hand finished to perfection

Katell prides itself on creating timber fireplaces with utmost quality and craftsmanship. Whilst using the latest CNC technology, conventional craftsmanship is still a fundamental feature during production and each and every fireplace is hand finished to maintain precision.

Made in the UK

All our timber fireplaces are proudly manufactured in the UK.

Caring for our environment

All our timber is sourced from FSC Approved suppliers who use certified and well managed forests. When you buy a timber surround from Katell you can be confident you are helping to protect our planet.

Made to Measure Surrounds

Although our fireplaces are built to standard sizes, we understand that you may require a more bespoke solution to suit your interior. Your local retailer will be able to supply us with your exact dimensions and this will be hand-built to your specification. Please contact your retailer for more information on this service.

World Class Customer Service

Katell has always been at the forefront of delivering amazing customer service - it comes naturally to us. We love making our customers happy and our trained customer services team are on-hand to provide quick solutions and answer any technical queries you may have.

Fires, Fireplaces & Stoves

In addition to this beautiful selection of timber fireplaces, Katell manufactures electric fireplaces, inset fires and stoves. To see our full collection of products and services, visit our website at www.katell.co.uk
